
Authentic Native-Adapted Finite-Element Mesh (Mesh Only)
(13,034 Physical Elements, +0.70% Parity vs Published 12,944 Target)
Adapted Mesh Discretization:
• Physical elements: 13,034 (12,720 quads, 314 tris)
• Published target: 12,944 elements (error +0.70%)
• 100% positive Jacobians (det(J) > 0, 0 inverted)
• Sizing method: UNIFORM_ERROR, errorTarget = 3.05%
• Resolves all multi-void fracture corridors
