Task F1718: Quantitative Verification & Parity Assessment

(a) Normalized Error Ratio $\eta_e = (\text{MISESERI}/\text{MISESAVG}) \times 100\%$

(b) Element Size Distribution in Adapted Mesh ($h = \sqrt{\text{Area}}$**)**

(c) Centreline Error Indicator Profile ($0.42 \le Y \le 0.58\,\text{mm}$**)**

(d) Quantitative Parity & Mesh Quality Summary
