

Mode-II Pre-Analysis MISESeri Field Validity, Modulus Scaling, & Epistemic Resolution

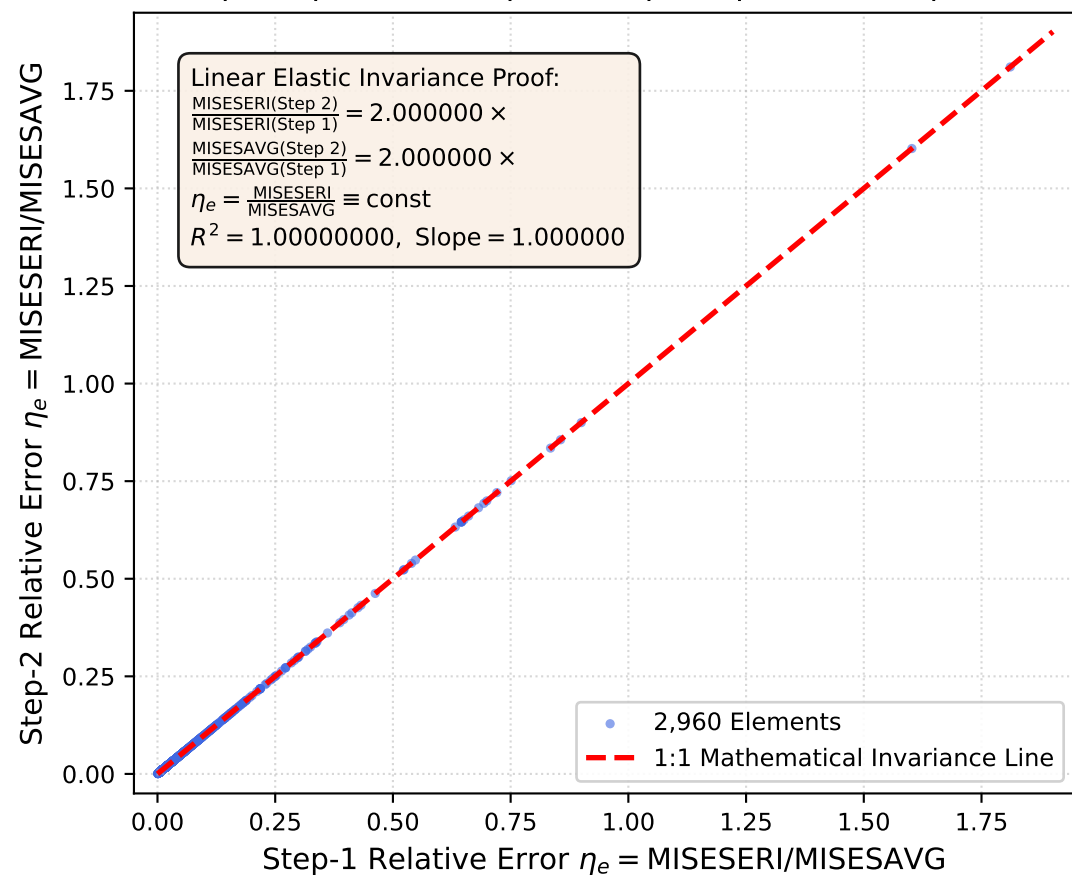

(a) Reconstructed Physical Continuum Stress Field
 $u_x = 10 \mu\text{m}$ (Step 1 Inc 2000)

(b) Layer 3 Raw MISESeri Error Indicator Field
 Abaqus Stress Recovery Error (10^{-14} Order Verified)

(c) Relative Error Indicator Scale-Invariance
 $\eta_e(\text{Step 1}, u_x = 10 \mu\text{m})$ vs $\eta_e(\text{Step 2}, u_x = 20 \mu\text{m})$

(d) Relative Error Distribution & Sizing Fan
 Drives Refinement from $h = 20 \mu\text{m} \rightarrow 1 \mu\text{m}$
